school uniform's cost rises while yardage shrinks

Believe it or not, public school kids wore uniforms. This year was different from past years in that uniforms were a bigger part of budgets. An ROTC member spent $7 for a hat. The pom-pon girls spent $65 each for their uniforms. Worst of all was the cost of funding athletics. Football uniforms costs rose $20. Swimmers were shocked when Lycra swimsuits, a ¼ yard material, hit $35 apiece.

warm-ups have valuable access: practice-perfect

Few classes started the day without warming up. Students involved in sports, modern dance, and business classes found them quite valuable. The vocal ensemble practiced scales and modern dance used various stretching and massaging techniques to loosen up. Typing and shorthand always required a ten minute drill. When thought was given to the concept of warmups, one realized how often they were used and how important they were for everyday activities.

tools everywhere from bic bananas to garden spades

Tools!! Everyone used them! Pens and pencils alone proliferated our society. People had a choice of a Flair or a Bic Banana. Tools also played a large part in school. In Mechanical Drawing, a good set of tools ran $10 to $50. Spades, shovels and hoes were a few of the twenty-five gardening implements used in Ornamental Horticulture. Of the 125 students in Crafts, most preferred to work on the potter's wheel. Tools indeed were everywhere.

Although there were many lab classes in school, marine biology scored, in students opinions, as one of the most exciting classes offered. stars, bells, blues musical hit tunes seasonally played

Musically the school rang with sound as the Wind Ensemble and the bands: concert, jazz, and marching perfected their tunes daily. Football season and the Veterans Day parade pushed "Stars and Stripes Forever" as a hit tune. By Thanksgiving "Jingle Bells" was competing with "Come All Ye Faithful."

machines assist learning, remove time and trouble

Instructional machines have always been a part of life and school work, the more common of which are saws and hammers used in shop.

The microscope and MIND machines were used to assist in solving problems. Typewriters and calculators are machines that helped students get their work done in a matter of minutes.

No matter what the class, there were always instructional machines that could help.

voice power includes choir, public speakers

Through voice power EHS students learned, taught and expressed themselves. Certain classes that specialized in voice were, Lucy Kinchen's choir and vocal ensemble, Gary Haberberger's dramatists, and Norman Robinson's public speakers. Some speakers traveled on their own to attend debates throughout the year. The mandatory subject of the debates was various aspects of Prison Reform in the United States.

creative students include moveable tools as necessity

Creativity begins with tools. Every day students used an infinite number of moveable tools in their homemaking, industrial art and craft classes. With the use of a tool, and a steady hand, plus a good imagination, all plans and thought out ideas became realities. With such a concept, students could express themselves more easily. Here HORIZON shows the everyday use of moveable tools.

students travel, promote learning, disregard books

Field trips involved students in learning. Artistic, practical, and enjoyable were the three types that dominated the year's trips.

Our practical artists toured the Museum of Modern Art. New art ideas appealed to them. The artistic who enjoyed good theatre saw "Othello." The French Club had the best deal. They ate at French restaurants and saw "French Flicks." Students said "Experience was better than books."

learning with projects: clay, crowns, plants

Projects were assigned to measure student creativity, to judge knowledge, or to alter the monotony of a class.

Ancient World History classes produced Egyptian crowns and discovered relationships between past and present architecture. Sewing enthusiasts created garments. Arts and Crafts began with clay and progressed to jewelry. Ornamental Horticulturists nursed struggling plants. Students tackled the projects as welcome changes.

communications, one thing school need not teach

We communicated in many different ways. We talked, cheered, wrote notes, danced; whatever it took, we communicated. In government, loud arguments arose between Ford and Carter supporters. In class when the phone rang in the middle of an explanation, and was answered, students talked about something other than classwork. We all communicated and no one had to go to school to learn.

with patience, skills improve saving time

"Patience is a virtue," trite but true! Consider patience as applied to your daily school activities. Assignments and projects, such as sewing and typing, usually turned out well. Sports skills diligently practiced each day showed improvement. Patience was even required in getting along with others. Whenever students took time to do something well, the end result showed patience prevailed.

daily challenge: classes require mind utilization

Classes that used the mind were better defined as those that engaged the brain. There were no classes in school that did not require some thought process. When students composed, painted, counted swim strokes, determined molecular weight or transcribed shorthand, mental wheels always turned. All students felt the burden of brain stimulation except, of course, those who slept through the day.

student daily life: multiple choices difficult decisions

How many decisions have you made in any one day? Thousands! Every class and activity required decisions. In classes like sewing, a poor decision meant much additional work to rip out a seam or to recut plaids that didn't match. Every Athletic game had decisions by the score. Our career center helped students make decisions that could effect their entire lives. Every day involved decisions.

students adopt metrics; newest way to measure

Cooking, science labs and weight training were the courses with the most apparent use of weights and measures. In auto shop repaired cars were the result of careful calibrations. For those in mechanical drawing it was vital to know the exact measurement before making any final draft. Fredricka Reaves's math class students found new challenges in converting our standard measurement into metrics.

mechanical tools, electrical gadgets prove invaluable

Everybody in America used mechanical tools in the '70's, even students. Two of the side benefits of a course in Business, Industrial Arts, or Homemaking included maintenance as well as use of tools like sewing machines, table saws, electrical gadgets, and IBM typewriters. Automated machines in a technological society were the backbone of America's might but they were also valuable to students.

research books provide link for history students

Every class used books. They were particularly important to Social Studies classes because they 'told it like it was.' Mr. Winberg's U.S. History class used Univ. of Calif. books dating from 1776 to write daily bicentennial articles. Research for term papers was an everyday thing in government. In Ancient History, students used countless books to find a model for their pharaoh's crown project.

academic classes: heavy on research for term papers

Term papers and reports were written in most academic classes. Heavily stressed in Social Science and English, term papers and reports were assignments that produced: heavy thinking, an average of twenty double spaced typewritten pages, footnotes and bibliographies.

encinal students celebrate our nation's birthday

The second week of May, 1976 was Encinal's time to join the nation in its 200th anniversary celebration.

School festivities included assemblies, dress-up competitions, and a day of fun and frolic. All week the library patio was the scene of sales, displays, and demonstrations. Friday's events climaxed the week with a parade around town and an old fashioned picnic on the football field.

bicentennial day memorabilia, our pictorial memory

Beginning with a big parade, the Bicentennial Picnic Day was very memorable. With the live band, "Race and Rhythm," students and faculty alike danced their feet off in a dance contest. Other activities included wheel barrow races, three legged races, and an extravagant water balloon fight.

stats, managers, become active in competitive sports

Each of Encinal's teams had its share of statistitions and managers whose roles were just as important as the players. The jobs these students had were not easy ones. Managers were responsible for the health and welfare of the players while stats recorded scores and individual accomplishments by the team. duncan promotes yo-yo competition senior wins event

Yo-yo's were given a chance to make a comeback at Encinal. Duncan prompted one week of activities which included a class by class contest on the front lawn which led to an overall contest in an assembly. This contest was won by senior Matt Dunn, who became Encinals Yo-yo champ for 1977.

This fad, popular in the late 60's, didn't make a comeback everyone expected.

those lazy days of summer last about one month

Those lazy days of summer, time to enjoy and "do you're own thing." To many, this meant taking a snooze, but to the more ambitious, it had different meaning. Students liked to hike, swim, play tennis, go sailing or just explore a new place.

For some, vacation didn't begin 'til August 2, when summer school ended. After that there was no more than a month for rest and recreation.

Chauffeured in an old yellow school bus, the fifty-five summer government students took off for Sacramento and a behind-the-scenes look at our legislators in action. bicentennial fun: students, families hold park picnic

According to the families and Encinal students who attended, the fourth of July picnic was a smashing success.

Events included after lunch were the tug-of-war, three legged race, and the sack race. Later the kids put on a modern version of an Abbott and Costello routine. Parents showed off their talents by singing songs. No one was left out as bikes and pets were decorated also

cb's develop an unknown jargon, new national fad

CB radios were a new craze in the U.S. as well as at Encinal. The price was reasonable and the radios were available at many stores. This made it easy for students to purchase them and install them in their cars or homes. The CB Truckers' Jargon is like a foreign language to most people, but not to the advanced CB'er. For those who wanted more of a hobby, Ham radios were great, but much more expensive.

photography proves fun and expensive

Photography as a hobby could be described in one word: Expensive.

The cost of film, developing, plus extra equipment was stressed as being outrageously "expensive." Thus, students chose to do their own developing and buy film by the bulk. The cost of one roll of film was $1.80. Eighteen cents per role was saved if you bought film in bulk.

Here HORIZON shows the many who indulge in this costly hobby.

The fashion scene of '77 was dominated by casual dress. This was portrayed by such things as printed tee-shirts, ski sweaters and a variety of painter-type pants. drought paints grim picture — no end in sight

Two severely dry winters in a row had a drastic impact on water systems throughout California. When lakes turned to puddles and reservoirs to deserts it was clear that water could not be used the way it once was. Conservation dominated daily life, every drop of water was precious. Worst of all was the news that weathermen saw no relief in the future months and we could only save the little we had left.

RIGHT AND BELOW: Steve Idle shaves using one of the conservation methods listed in the chart

How to save water

	Normal Use	Conservation	How To Do It
Shower	Water running 25 gallons	**4 gallons**	Wet down, soap up, rinse off

seniors "77" have 15 graduates with 28/100 grade spread

The class of 1977 had many students with intelligence and drive. Administrators decided to have the Top 15 instead of the regular Top 10. This process resulted in a three-way tie for fifteenth place. Grade point averages ranged from David Hedden's 3.98 to Michelle Irving with a 3.70. Grade points were forgotten when dressed in the deep blue and white of graduation's new robes.

spirit week fun: freshmen knock off older students

The class of '80 and advisor Jac Campbell held bake and candy sales as fund-raisers, but their best efforts came during Spirit Week. The 470 freshmen sold 1776 links for their hall decoration and took on their older peers in the tug-o-war contests. With a good grasp of the rope, they out-pulled both the Sophomores and the Seniors. As a result, they earned the 3rd place trophy in the "most spirited class" contest.

sophomores sponsor dance to bolster bank

The fall semester sophomore class kicked off the year with the traditional Soph Hop. During Spirit Week they sold pennants to advertise for the big game between Alameda and Encinal. In the spring semester the sophomore class, in addition to the other activities, sponsored bake sales, a car wash, and a sucker sale which proved extremely successful. The year was full of good fortune for them.

juniors ponder over the location of all-night party

The Juniors did not initiate many activities as a class this year, but during spirit week they've held a successful button sale with the class slogan on it. The button read, "don't mess with the best cuz the best don't mess." Still undecided on the location of the all-night party for next year, the Juniors pondered over that particular question throughout the year. But still they found no answer.

disneyland dream becomes a reality for seniors of '77

Hard work paid off as the class of '77 raised over $4,000 and took the long awaited trip to Disneyland. With the help of advisors Carolyn Fore and Jon Medieros, the seniors had successful candy sales, bake sales, button and pom pon sales, and two dances. The most profitable event was the Sadie Hawkins dance which cleared over $400 and enabled the seniors to co-sponsor the prom with the junior class.

coaches present awards; dinners honor athletes

Besides training athletes, coaches had the pleasurable job of presenting awards to students with outstanding athletic ability. Special awards were given to those who possessed the most dedication and enthusiasm.

Awards dinners provided an opportunity for parents and teachers to get together and take pride in their son's, daughter's and students' athletic achievement.

ADVERTISEMENTS ...

FROM FAR RIGHT (PAGE 233): Gary Difabio (left) is one of many lured into Grodin's of Harward by their unending advertising campaigns; Charlie O and a pretty girl are used to advertise for the Oakland A's; Joan Mackey and Shannon Derris are set to sell some goodies to one of the many people who saw the S-Club advertisement in the Alameda Times Star; members of the B.S.U. used the "door-to-door" advertising campaign to promote ticket sales.

JAMES McKALIP: Time it was
And what a time it was.
It was . . .
A time of innocence
A time of confidences
Long ago . . . it must be,
I have a photograph
Preserve your memories
They're all that's left for you.
— Paul Simon —

KAREN MELVIN: I give my thanks for the Loveliness of Spring. With the promise of Summer.

MERCY MILANA: Joseph Camcam Cabrera: When you said "I'm Falling In Love With You" I told you, "I Love You More Today Than Yesterday." But, "Forever Came Today" "Reasons" and "Feelings" said "Someday We'll Get By" "Now I'm With You" and "For Once In My Life," "This time it's REAL."

VINCENT MILLS: "What's bothering me is, who is going to run your assemblies when I'm gone? It will be very dull staring at an unlit stage for 50 minutes; that is, if you can get someone to open the curtains. God save the Queen and Monty Python, too

LARYNE MIYASHIRO: To the old Gang, my physics buddies and KS, MN, EY, BW, MQ, JI, CB, KM, and LS: "Nothing Gold Can Stay" but the memories that we've made together will stay bright and shinny in my mind forever. Take Care.

Oh yes! One more thing: Dorothy Hamill, Harold Solomon, and, of course, EHS are #1.

JOANN PEREA: "Each day I learn Just a little bit more. I don't know why but I do Know what for. If we're all goin' somewhere, let's get there soon. This song's got no title, just words and a tune. — Elton John —

LYNN PRESTON: . . . The young becomes the old and mysteries do unfold. For that's the way of time. No one and nothing goes unchanged. There are not many things in life one can be sure of, except Rain comes from the clouds Sun lights up the sky Humming-birds fly . . . EVERYTHING MUST CHANGE — Bernard Ighner —

MESCIELLE QUAN: Many, many days our shadows passed seeing visions of a bright new horizon. Set the morning light and that morning light is you, so I imagine my heart with you.

they're really a lot of fun.
Smiles are like a child
sometimes, they can be really wild.
Smiles are like a Polar Bear
some of them are really rare.
Smiles are like a ruby or a gem
it's beautiful to look at them
Smiles are a part of all of us
So why do people look so mean
When they can smile, now that's really keen.

LINDA SCOTT: One generation passeth away, and another generation cometh; but the earth abideth forever . . . the sun also ariseth, and the sun goeth down, and hasteth to the place where he arose.
— Ecclesiastes —

GINA SEPIC: We live only once. Make your days count for once they have gone they will never return. Treasure all memories both good and bad for they will make your life full. Be happy and content all your days, Good Luck Class of '77, you were good to me.

DON SIBBETT: Ocean breeze . . . fill my sails and set me free, take me anywhere I don't need to be. Let me sail away, into the sun.

CLAY SIMPSON: Talk about your plenties, talk about your ills. One man gathers what another man spills.
— St. Stephen —

MARIE SMITH: Thanks to the people that became my friends made me feel welcome as a new student.

LAURA SQUIRE: In the last shadow
Of the then no longer
Morning came
And washed us clean
Dusting us with gray
No longer navy blue
'I like this" you said
Saying what
I thought of you.
All my love to my husband Gary.

LOWELL STEPHENSON: Life is like a race
So try to keep your pace
And keep a smiling face
While life is on your case.
— Earth, Wind and Fire —

T. STRNAD: Blue sky around me
The never ending horizon before me.
I feel the wings of promise stretching ahead
Shall I fly swiftly, or linger earthbound?
The sunrise is my new promise

TRACEY STUBBS: To Deb: "The only thing better than having a friend you can trust is having a friend that will trust you." Thanks for being both. Good Luck to you and all of our "Sucker" friends who made this year what it was. Remember the best!!

MARY SULLIVAN: The essentials of life are:
Something to do, something to love, and
Something to hope for.

KEVIN SVERDUK: Spauldings are white
Wilsons are greeny
I love to play tennis
and spend time with my Rynie.

JIM TAXIERA: Sure I clowned around these 4 years, and now as I look back, I realize that if given another chance . . . I'd do the same damn thing!
Buurrrp. Goodbye.

DEENA THIEME: I wish Vicki and Tanya all the luck in the world through the coming years. To Brenda (My best friend) I wish you everything you want in life. I wish you and Mickey Giles Happiness. Like I've always told you, a good thing never dies. To RL, I wish us happiness.

DIANE THIEME: To: GC from DY
We lost what we had, that's what hurt us so bad. Starting all over again is going to be tough. Starting all over as FRIENDS is going to be rough, but WE'RE gonna MAKE IT. Goodnight, Sweet Dreams.
I love you . . . (When you play you pay. When you lag you lose.)

PETER HOLLEY: Believe what you see;
But see the truth.

KATHY TYKSINSKI: "Though nothing can bring back the hour of splendor in the grass or glory of the flower, we will grieve not; rather, find strength in what remains behind. Steve: You're my "Sweet Thing."

INGA IGORTOWSKI: To my dearest brother Phillip: Thanks for sharing your insanity, without it I would never have been able to keep mine. YEAH BUB!!!

TAMI VALASCO: Don't wish your days away or dwell on the past, for memories of life perish. Love each day to its fullest, look on to warm thoughts, and life will be worthwhile.

ANGIE WADE: This is dedicated to all the minorities at EHS. It is important for all of us to retain our identity and our cultures stick together because if we do, we will no longer be the minority but the majority! Black is so Beautiful!

TRACY L. WATKINS: "Talk of poems, prayers, and promises
the things which we believe in
how sweet it is to love someone
how right it is to care
how long it's been since yesterday,
what about tomorrow? what about our dreams
and all the memories we've shared."
may the class of '77 find happiness always AND may everyone in the class of '78 find as much happiness and sunshine as I did being a senior . . . My Love Always.

ELIZABETH WERK: We shall do so much in the years to come.
We shall lift the heart and dry the tear.
We shall plant hope in the place of fear
and we shall speak words of love and cheer.

JENNIFER WILCOX: People live in a fantasy, thinking that school prepares them for the outside world. The only way to become prepared for life is to live it day by day. Friends, I will remember you, think of you, pray for you. And when another day is through, I'll still be friends with you.

BECKY WINSLOW: It's never too late to learn. Little by little one goes far! Money makes the world go 'round . . . 450SL SKI' SKI' SKI'
(Water or snow.) p.s. Hello, DC, high BSP I'm going to miss your smile, Mr. Frank Killpatric"

LORI WINSLOW: Eat, drink and be merry . . .
I love you Glenny Baby!

JAMES M. WONDOLLECK: Life without sailing is like a stained-glass window without the sunlight. School has been and always will be the clouds blocking my sunlight. Possibly the worst thing a human could be is, "To be a rock and not to roll."

JODY WONG: "I can do all things through Christ which strengthens me" — Phil. 4:14

EARL YAMAGAMI: To all my friends who have made these past 4 years a constant series of great times I say Thank You Very Much. NOW FOR SOMETHING TOTALLY DIFFERENT:
Life itself can't give you joy,
Unless you really will it.
Life just gives you time and space
It's up to you to fill it. EY '77.

DAVEY YEE: To strive actively to achieve some goal gives your life meaning and substance.

SALLY YEE: No act of kindness, no matter how small, is ever wasted.

JULIE ZEHNDER: "Life is for living and loving, caring and sharing." I loves ya Ricky babes.

ROBIN BRADLEY: "Save the Whales" "Save the Earth"
We must learn to live in harmony not only with each other, but with all the beautiful creatures on this planet.

RICHARD DALEKE: Don't come back 'til you finish your 'Dak.'

TO OUR READERS:

We of the HORIZON '77 staff have produced a book full of the past year's memories and can only hope that you've enjoyed it as much as we've enjoyed putting it together. There were some major innovations in this year's edition that have been tried by only a few schools in the country. We felt it was worth the "risk" to take a leap forward in yearbook editorial progress and present you with what we consider to be Encinal High School's finest edition of THE HORIZON.
